

SCHOOL FOR COMMUNITY DEVELOPMENT — Teacher Delivery Sheet

Class 1 · English Grammar Campaign · Block 04: Adjective — Recognition

Week W4 · Solo block · Sun–Wed (4 teaching days) + Performance Test Thu · 35-min classes · English throughout

Teacher quick-checklist - Teach to the cap: **recognition only** — choose the correct adjective; underline the adjective. No sub-types, no comparatives, no production beyond the one guided self-try. - Re-walk “naming word / noun” fast before starting — a bridge, not re-teaching. - Teach the term **adjective**: say it (ad · jec · tive), read it, spell it. Taught and recalled, never a graded blank. - Teach → read → spell → **use** every adjective before it appears in any choose-item. - Graded items use only adjectives taught **up to that day** (Sun: tall/long/soft/hard · Mon: +clean/dirty/sweet/sour · Tue: +weak/strong · Wed: all ten, no new words). - Each day closes with its **Exit Check** — one prompt per student (roll = 7), oral, day’s target only. Answer alone suffices. - Wednesday: **no new vocabulary**; ungraded self-try **rehearsal**. Thursday’s graded self-try uses **different prompts**. - Values: no living-being imagery (word-cards, not pictures), non-mahram screen, sacred-word guard, attribution screen on any nature sentence. - Worksheets **English only**; Bangla given orally where a child is stuck, never printed beside items. - **CW is completed in class every day** (Class 1 standing rule); HW is separate independent practice. - **Worksheet items live on their own sheets** — CW-2/3/4, HW-1/2/3/4, PT. This sheet carries the script only. **Sunday CW-1 is notebook work** (items in the Sunday script below), not a worksheet.

Learning outcomes (plain form)

- Recognise that an adjective is a describing word that describes a naming word (noun).
- Read and spell the ten taught adjectives (five pairs): tall/long · soft/hard · clean/dirty · sweet/sour · weak/strong.
- Choose the correct adjective from two options in a description sentence.
- Underline the adjective in a sentence.
- Write one describing-word sentence of their own (guided self-try).

Clue Card content (build with the class Sun–Tue; on the wall by Thursday)

An adjective is a describing word. It describes a naming word (noun) — like *boy, bird, mango*.

Noun কে বর্ণনা করে। জিজ্ঞেস করে — এটি কেমন?

Our describing words: tall · long · soft · hard · clean · dirty · sweet · sour · weak · strong

Adjective	Example
tall ↔ long	a tall boy · a long road
soft ↔ hard	a soft bed · a hard stone
clean ↔ dirty	a clean hand · a dirty bag
sweet ↔ sour	a sweet mango · a sour lemon
weak ↔ strong	a weak cat · a strong lion

How to read the chart: read the English word first, then the picture in the mind, then the meaning. A describing word comes before a naming word: a soft bird, a strong cow.

Optional teacher note: Give the Bangla meaning aloud only when a child cannot follow the English word. The Bangla on the chart is a support — let the child read the English first, or they will lean on the Bangla and stop reading the English.

Sunday — the term *adjective* · pairs 1–2 (tall/long, soft/hard)

Vocabulary today: the term *adjective*; tall, long, soft, hard (first exposure — read and spell).

Step	Time	Focus
1	0–5	Track A oral routine (never cut)
2	5–8	Re-walk: what is a naming word?
3	8–14	The term: adjective (say · break · read · spell)
4	14–18	Teach pair 1 — tall / long
5	18–23	Teach pair 2 — soft / hard
6	23–33	CW-1 — in the notebook (~10 min)
7	33–35	Exit Check

Step 1 — Track A oral routine (0–5): standing routine — alphabet spot-check · numbers 1–10 · greeting · command drill · one Q&A pattern. Never shortened for grammar.

Step 2 — Re-walk naming words (5–8): Books closed. Write: boy · bird · mango · book · tree. “What do we call these words?” → Naming words. Nouns. “A naming word names a person, an animal, a place, or a thing.” “Today we learn a new kind of word — one that describes a naming word.”

Step 3 — The term: adjective (8–14): “a tall boy, a soft bed, a sweet mango — the words tall, soft, sweet describe the naming word. They are called adjectives.” Board-write **adjective**; show ad · jec · tive; read part by part, then whole word ×3. Spell aloud a-d-j-e-c-t-i-v-e; class copies once. Post the Clue Card, read the top line together. First exposure — say/read/spell; recall checked from Monday.

Step 4 — tall / long (14–18): Word-cards, meaning → read → spell → use. **tall** — “a tall boy is high” (reads ×3; spell t-a-l-l). **long** — “a long road goes far” (reads ×3; spell l-o-n-g). “Which word for the boy who stands high?” → tall. “For the road that goes far?” → long. (*In Bangla both are लम्बा — English has two words; teach that. Oral only if stuck.*) Clue Card row 1.

Step 5 — soft / hard (18–23): **soft** — “a pillow is soft” (reads ×3; spell s-o-f-t). **hard** — “a stone is hard” (reads ×3; spell h-a-r-d). “Which for the bed?” → soft. “For the stone?” → hard. Clue Card row 2.

Step 6 — CW-1 in the notebook (23–33): No worksheet. Write the four items on the board (or read aloud); children answer in the khata. Model item 1: read the sentence, read both choices, circle/write the fit. “*My father is a tall man — tall or long? A man stands up high — tall.*” > **CW-1 notebook items (teacher answers in brackets):** > 1. My father is a (tall / long) man. → tall > 2. The tree is very (tall / soft). → tall > 3. A pillow is (soft / hard). → soft > 4. The stone is (hard / long). → hard

Step 7 — Exit Check (33–35): One prompt per student (roll = 7); teacher says a describing word, student reads it and uses it in “a ____”. Prompts: tall / soft / long / hard / tall / soft / hard. Answer alone suffices.

Monday — pairs 3–4 (clean/dirty, sweet/sour) + revise Sunday

Vocabulary today: recall term *adjective*; clean, dirty, sweet, sour (read and spell); revise tall/long/soft/hard.

Step	Time	Focus
1	0–5	Track A oral routine
2	5–9	Recall Sunday + term recall
3	9–15	Teach pair 3 — clean / dirty
4	15–21	Teach pair 4 — sweet / sour
5	21–25	Quick mixed oral (4 pairs)
6	25–33	CW-2 — done in class (~8 min)

Step	Time	Focus
------	------	-------

7	33–35	Exit Check
---	-------	------------

Step 2 (5–9): Books closed. “What is the new word for a describing word?” → Adjective (say ×2; a child or two spell aloud). Rapid oral: teacher says noun + gesture, class supplies tall/long/soft/hard.

Step 3 — clean / dirty (9–15): clean — “a washed hand is clean” (reads ×3; c-l-e-a-n). **dirty** — “my shoes are dirty” (reads ×3; d-i-r-t-y). “Which for the washed hand?” → clean. Clue Card row 3.

Step 4 — sweet / sour (15–21): sweet — “a ripe mango is sweet” (reads ×3; s-w-e-e-t). **sour** — “a lemon is sour” (reads ×3; s-o-u-r). “Which for the lemon?” → sour. Clue Card row 4.

Step 5 — mixed oral (21–25): Shuffled word-cards, all four pairs. Show → class reads → one child uses it in “a ____”. Fast and light.

Step 6 — CW-2 in class (25–33): Distribute CW-2 (Sun + Mon words). Model item 1. Students complete in class (~8 min). HW-2 goes home separate.

Step 7 — Exit Check (33–35): roll = 7; reads a taught word and uses it, drawn from all four pairs. Prompts: clean / sour / sweet / dirty / clean / sweet / sour.

Tuesday — final pair (weak/strong) + all-five revision + begin guided choose

Vocabulary today: weak, strong (read and spell); revise all previous eight; begin guided exercises using taught words only.

Step	Time	Focus
------	------	-------

1	0–5	Track A oral routine
---	-----	----------------------

2	5–10	Revise all eight taught words
---	------	-------------------------------

3	10–18	Teach pair 5 — weak / strong
---	-------	------------------------------

4	18–30	CW-3 — done in class, slowly (read and decide)
---	-------	--

5	30–35	Exit Check
---	-------	------------

Step 2 (5–10): Shuffled word-cards, pairs 1–4. Read the card, give a noun it describes. Recall the term *adjective* once.

Step 3 — weak / strong (10–18): The hardest pair — taught last, most revision behind it. **strong** — flex arm, “a lion is strong” (reads ×3; s-t-r-o-n-g, note the *str* start). **weak** — “a

sick cat is weak" (reads ×3; w-e-a-k, note *ea*). "Which for the lion?" → strong. Clue Card row 5. All five pairs now on the wall.

Step 4 — CW-3 in class (18–30): Distribute CW-3 (all five pairs) — the week's fullest sheet; give the full twelve minutes, let them work slowly. Children read each sentence, read both choices, decide on their own. Teacher moves around and guides (re-read, point to Clue Card, "which one fits?") but does not give the answer. Model item 1 aloud first. HW-3 goes home separate.

Step 5 — Exit Check (30–35): roll = 7; a choose-pair spoken aloud, child picks and says why in a word/short phrase (English or Bangla). Prompts: lion → strong · sick cat → weak · elephant → strong · tired frog → weak · cow → strong · sick boy → weak · horse → strong.

Wednesday — consolidation: recognition + underline + ungraded self-try rehearsal

No new vocabulary. Cumulative practice, a new task shape (underline the adjective), the self-try rehearsal (not graded).

Step	Time	Focus
1	0–5	Track A oral routine
2	5–12	Revise all ten; introduce <i>underline the adjective</i>
3	12–24	CW-4 — choose + underline practice
4	24–31	Self-try rehearsal (ungraded)
5	31–33	Set up Thursday PT
6	33–35	Exit Check

Step 2 (5–12): Fast oral round, all ten words. Then teach the recognition move: "In 'The tall boy reads a book', which word describes the boy?" → tall. "We underline it." Model 2–3 on the board.

Step 3 — CW-4 in class (12–24): Distribute CW-4 (underline; all taught words). Students complete in class (~12 min). HW-4 goes home separate.

Step 4 — Self-try rehearsal (24–31) — ungraded: "Now you try on your own. I will not help. Write one sentence. Use one describing word you learned and a naming word you know." Board frame: **__ is a __ [adjective] __.** (e.g. My brother is a tall boy.) Silent writing ~4 min; 2–3 volunteers read aloud; feedback on **accuracy only — no marks**. Thursday's graded self-try uses different prompts. (*Sacred-word guard, attribution screen, non-mahram screen apply to anything shared or displayed.*)

Step 5 — Set up Thursday PT (31–33): Tell the class: Thursday has spelling, meanings, months, letter-words — and one describing-word sentence of your own.

Step 6 — Exit Check (33–35): roll = 7; read a short sentence aloud, child names the adjective (prompts differ from the worksheets): “The tall boy runs” → tall · “My clean hands” → clean · “The strong cow” → strong · “A sour lemon” → sour · “The soft bird” → soft · “A long road” → long · “The weak frog” → weak.

Thursday — Performance Test (teacher runs it; student sheet is C1B04-PT)

In-school, teacher-administered · English only · one sitting. The student paper is the separate PT extract; run the parts in order.

- **Part A — Spelling & Dictation [5]:** read 5 words aloud (not printed on the student paper). Rotation includes taught adjectives (soft, tall, clean, sweet, weak) alongside held-pool words; you may substitute held-pool words. (*Word list is teacher-held — see the Answer Key, not this sheet.*)
- **Part B — Bengali meanings [5]:** teacher · morning · eye · nose · zoo (W4 held-pool nouns).
- **Part C — Months in English [3]:** জানুয়ারি · এপ্রিল · ডিসেম্বর.
- **Part D — Letter-words [2]:** one word each beginning B and S (teacher judgement).
- **Part E — Choose the adjective [10]:** mirrors Annual Q4; on the student sheet.
- **Part F — Self-try [4]:** their own describing-word sentence. **Different prompts from Wednesday’s rehearsal.**

Self-try rubric (4 marks — teacher marks this): 1 mark each for content accuracy · reasoning (English **or** Bangla accepted, asked orally) · organisation (capital start, full stop) · word-class placement (the adjective sits in an adjective position; the child is **not** asked to name the class). **Value alignment is not scored.**

PT total: 15 + 10 + 4 = 29 marks.

C1B04-TD
